1. Two anti-aircraft guns of large caliber, on tires, are placed on both sides of the section of Gjinokaster where Division Headquarters and the military barracks are located. The guns are covered by canvas, and the soldiers in charge of them are stationed nearby in small stone houses.
2. Two guns (sic - presumably anti-aircraft) of 76 mm. are placed close to the "Kardito" bridge in Gjinokaster, near which four new barracks used as munitions warehouses have been erected. Also in the immediate neighborhood of the bridge are six more guns of similar type, all on tires.
